About Imagi-tech

Imagi-tech is a professional web and programming team, made up of a unique blend of talents and individuals. We provide our clients with solutions that help them grow and build their businesses. We specialize in web apps and software to solve your business problems but have a long history and experience with UI/UX design, websites, and ecommerce.

Business Challenge

Imagi-tech has worked with information management system and field service businesses and found that many have a critical need for information management in an easy to access and easy to use manner. Our goal was to design and build a field service documentation tool that put the information of the field service teams directly into the hands for the office teams with no fuss or mess.

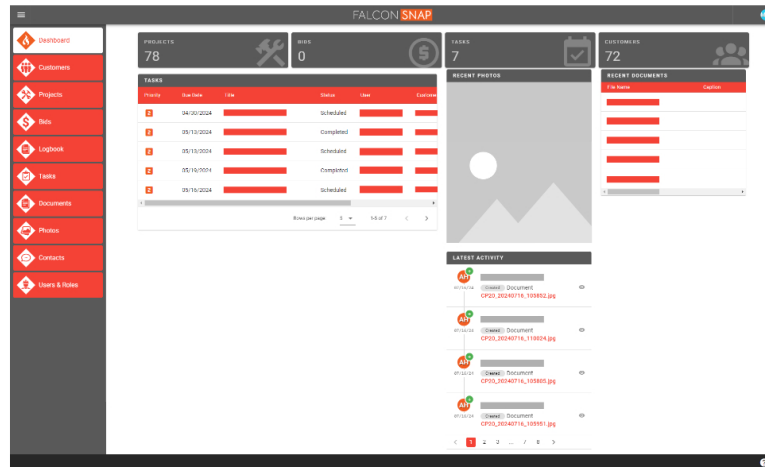

Our Solution

Imagi-tech designed the FalconSnap web-application based on the needs of field service industries. Through multiple years of research, review, and revisions, a platform specialized to cut through the complicated and saturated market has been realized. FalconSnap focuses on ease of use for the lowest entry cost on time and expertise.

Our Solution

FalconSnap is a live platform that any field service business can sign up for and begin benefitting from. With a steadily growing market interest and client base, FalconSnap looks forward to continued revisions and expansion of the module library to serve a multitude of needs.
